**UCONNECT®**

**Chrysler Canada: Uconnect® Delivers an Array of State-of-the-art, Innovative and Easy-to-use Features for 2015**

2015 Chrysler Group vehicles will allow customers to stay connected to the information they want and need while remaining focused on the road. Most vehicles offer a Uconnect® multimedia centre, which provides drivers with a range of available communication, navigation and entertainment features.

Consumers can choose the Uconnect multimedia centre that suits their individual needs. With advanced available features, drivers have the ability to make hands-free phone calls, receive turn-by-turn directions as they navigate to their location or respond to text messages using 18 predefined message options. Car and truck buyers have a variety of options to choose from, including:

**Communication features:**

- **Hands-free communication:** Simply push a button to receive an incoming phone call, or use your voice to place an outbound call.
- **Voice-text reply:** Once a compatible mobile phone is paired to the Uconnect multimedia centre, drivers can also reply to a text message using 18 predefined messages

**Entertainment features:**

Drivers can enjoy music and information with a variety of entertainment options, which include:

- AM, FM, or SiriusXM satellite radio
- Bluetooth® streaming audio
- CD Player
- USB port
- SD Card slot
- Auxiliary input jack

## Navigation features:

Uconnect has partnered with the leaders in navigation to help ensure drivers know where they are, where they are going, and how long it will take to get there. Drivers have access to points-of-interest, well-designed maps and turn-by-turn directions that broadcast over the vehicle's audio system. Available on select models, the customizable in-cluster display also provides drivers with real-time, full colour directions at a glance.

## SiriusXM Satellite Radio

Customers purchasing any new 2015 Chrysler Group vehicle equipped with SiriusXM satellite radio receive a one-year subscription to the SiriusXM service with access to the premium programming lineup, including live sports play-by-play and expert talk for every NFL, NHL and MLB game, world-class news from award-winning journalists at CBC, CNN, MSNBC and more, and exclusive talk with Howard Stern, Oprah Radio and Blue Collar Radio. With over 120 channels to choose from, SiriusXM will keep you and your passengers informed and entertained.

## Control your Uconnect multimedia centre, features and services your way

The intuitive controls on your Uconnect multimedia centre are easy to find and easy to use and help keep you focused on driving – serving you the information you need, when you need it. Drivers can control their Uconnect multimedia centre their way, using the touch screen display, steering wheel-mounted controls, voice recognition technology or traditional knobs and buttons.

- **Steering-wheel audio controls:** Change from FM to satellite, from one channel to another, adjust the volume or change music tracks without ever taking your hands off the wheel. Rocker-switch buttons are mounted where your fingers rest on the backside of the vehicle steering wheel.
- **Touch screen displays:** Control navigation, entertainment, climate, and phone from one place. View album art and artist information, or street maps and points of interest.
- **Hands-free Communication:** The available hands-free communication is a voice-activated communication system that allows drivers to operate their mobile phone, music and navigation system handsfree to stay focused on driving. When a compatible Bluetooth mobile phone is initially connected to the system, the phone book within a mobile phone is automatically downloaded, synchronizing as many as 5,000 phone book entries, which can then be selected by simply saying a contact name. The feature also allows drivers to switch radio modes, tune to SiriusXM Radio, AM and FM. The hands-free option promotes driver focus, freedom, value and flexibility.

Bluetooth-equipped cell phones with Message Access Profile (MAP) also may feature advanced text-messaging that:

- Announces receipt of a text message
- Audibly identifies sender
- Reads the message
- Voice-text reply

### **About Chrysler Canada**

Founded as the Chrysler Corporation in 1925, Chrysler Canada Inc. is based in Windsor, Ontario, and celebrates its 89th anniversary in 2014. Chrysler Canada is a wholly owned subsidiary of Chrysler Group LLC, one of the world's leading automotive companies. Chrysler Canada has approximately 440 dealers and markets Chrysler, Jeep®, Dodge, Ram, Fiat and Mopar vehicles and products. In addition to its assembly facilities, which produce the Chrysler Town & Country, Dodge Grand Caravan, Ram Cargo Van (Windsor), and the Chrysler 300, Dodge Charger and Dodge Challenger (Brampton), Chrysler Canada operates an aluminum casting plant in Etobicoke, a research and development centre in Windsor, and has sales offices and parts distribution centres throughout the country.
