

# 2017 DODGE VIPER

## RECORD-SETTING PERFORMANCE<sup>1</sup> //

- 0-100 kph in the low 3-second range
- 0.4 kilometres (quarter mile) in the 11-second range
- Top track speed of 332 km/h (206 mph)
- Holds the production car lap records at nine US tracks

## AWE-INSPIRING POWERTRAIN //

- 8.4L V10 engine with 645 horsepower and 600 lb-ft of torque
- Composite intake manifold, light forged pistons, stiff pushrods, sodium-cooled exhaust valves and free-flowing exhaust catalysts
- TREMEC<sup>®</sup> TR6060 close ratio six-speed manual transmission with a final drive ratio of 3.55 to 1 for improved high speed performance<sup>1</sup>

## OUTSTANDING RIDE, HANDLING & CAPABILITY //

- Frame structure uses high-strength steel, magnesium, aluminum and carbon fibre
- Electronic Stability Control<sup>2</sup> with up to five modes works with standard launch control system to optimize off-the-line acceleration
- Four-wheel independent suspension, performance coil springs, gas charged aluminum body Bilstein<sup>®</sup> monotube dampers and tubular stabilizer bars all contribute to the race-type suspension system

## BENCHMARK BRAKING //

- 14-inch vented rotors with front and rear Brembo<sup>®</sup> four piston calipers

DISCLAIMERS: 1. Drive Responsibly. Always obey the rules of the road. 2. No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions.

DODGE

# UNLEASH THE LEGEND DODGE VIPER

## AGGRESSIVE AND FUNCTIONAL EXTERIOR

- Timeless exterior design incorporates iconic Viper styling cues in a contemporary execution
- Dual side sport exhaust
- Hood features the classic Viper cold-air intake, with air temperature only 10 degrees above ambient at the intake
- An optimally sized front air intake incorporates front brake ducts with enhanced surfacing for more efficient brake rotor/caliper cooling with less drag
- The hood, roof and liftgate are made of advanced ultra-lightweight, state-of-the-art carbon fibre panels

## RACE INSPIRED INTERIOR

- Sabelt cloth clamshell configured seats
- Height-adjustable driver's seat to suit virtually any driver when combined with adjustable pedals
- 7-inch LED-backlit in-cluster display centre provides a high-definition view of vehicle performance feedback to the driver
- Steering wheel-mounted controls include, in-cluster display centre, audio, cruise, hands-free communication and Electronic Stability Control<sup>1</sup> with Launch Control<sup>2</sup>

## 2017 DODGE VIPER LINEUP HIGHLIGHTS

- **GTS**
  - Premium Laguna leather 6-way power seats with Alcantara® headliner
  - 18-Speaker Harman Kardon® high-performance audio system
  - StopTech® two-piece slotted brake rotors with Red Brembo® calipers
- **GTC**
  - Total customization: Over 25 million unique build configurations
  - Choose from 8,000 custom hand-painted exterior colours
  - Offers 16 unique interior trims, a variety of wheel styles and a long list of optional equipment
- **ACR**
  - Extreme wing rear spoiler and front splitter assembly – Available
  - Six-piston front and four-piston rear caliper Brembo carbon ceramic matrix brakes – Available
  - Five-mode electronic stability control<sup>1</sup>

DISCLAIMERS: Specifications, pricing, descriptions, illustrative materials and all competitive comparisons/claims contained in this document are as accurate as known at the time of production approval (June 2016). Some of the equipment shown or described throughout this document is available at extra cost. 1. No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 2. Drive Responsibly. Always obey the rules of the road.
