About the 2017 Fiat 500

Reminiscent of the original Cinquecento, the 2017 Fiat 500 builds on the vehicle's global popularity. Since its initial launch in 2007, more than 1 million Fiat 500 vehicles have been sold in more than 110 countries around the world. The model's unquestionable popularity is the result of the Fiat 500's great ability to deliver unmatched personalization options with advanced solutions in terms of quality, engine performance and passenger comfort. In addition to success on the sales front, the Fiat 500 has earned more than 80 international awards.

Building on the excitement of the Fiat 500 (Cinquecento), the 2017 Fiat 500 Abarth and Abarth Cabrio are designed for track-day enthusiasts and driving purists who want the ultimate high-performance small car with the pedigree of an exclusive Italian exotic. With its 1.4-litre MultiAir Turbo engine, Abarth-tuned suspension and brake systems, race-inspired design, and technology features not traditionally included on a small car, the 2017 Fiat 500 Abarth unleashes legendary Italian performance heritage to American streets.
